GEORGE DAVITIANI

george.davitiani@hey.com

OBJECTIVE

Deliver value by solving complex technical problems as a **Network Engineer**.

SUMMARY OF QUALIFICATIONS

- 20+ years of diverse background in the enterprise networking specializing in Cisco, Palo Alto Networks, F5, Juniper and AWS products and solutions.

- I have extensive hands-on experience in designing, implementing and operating Data Center, Campus, Wide Area, Wireless and Cloud networks.

- I also have considerable experiencing building production grade network automation solutions and I'm proficient in software development tools and methodologies.

- I can clearly communicate technical concepts to both technical and non-technical audiences and make presentations to all levels of an organization.

- I'm detail oriented and self-disciplined with excellent time management skills and I collaborate well with IT professionals across different functional teams.
